

On March 19, 2016 the delegation from Hindustan College of Science and Technology (Farah City, India) arrived at our University within the framework of Cooperation Agreement. The delegation members: Dean of the Faculty of Physics professor Mulayam Gaur and professor of the Faculty of Physics Tiwari Rajeev Kumar. The purpose of this working visit was the conduction of joint researches and consideration of the potential future cooperation. During the 7 days` visit our Indian colleagues met with the administrative staff members of the University, visited laboratory «Physical Chemistry and Technologies of Micro- and Nano-sized Systems», Practical Scientific-Research Laboratory for joint research activities. Besides, on March 23, 2016 the visitors gave an open English language lecture on the topic «Nanosize and Nature» for the students of the Faculty of Physics. The lecturers were speaking about nanomaterial scientific researches, as well as about Indian culture, its system of education, religion, population and places of interest.
